

# **27" C.A.R.T. Fury Dedicated Video Game Amendment**

***Please be informed of the following changes...***

- I.** Correction of typo regarding fuse size for Wheel Driver Board. The chart on page 15 in Chapter 4 Parts has been amended. Refer to page 1 of this amendment for complete details.
- II.** Wiring diagrams as shown in the 27" Dedicated C.A.R.T. Fury™ manual (16-40090-101) are incorrect due to recent revisions.

Please refer to page 2 through 5 for information regarding main cabinet, RF cage, control player panel, and power wiring diagrams.

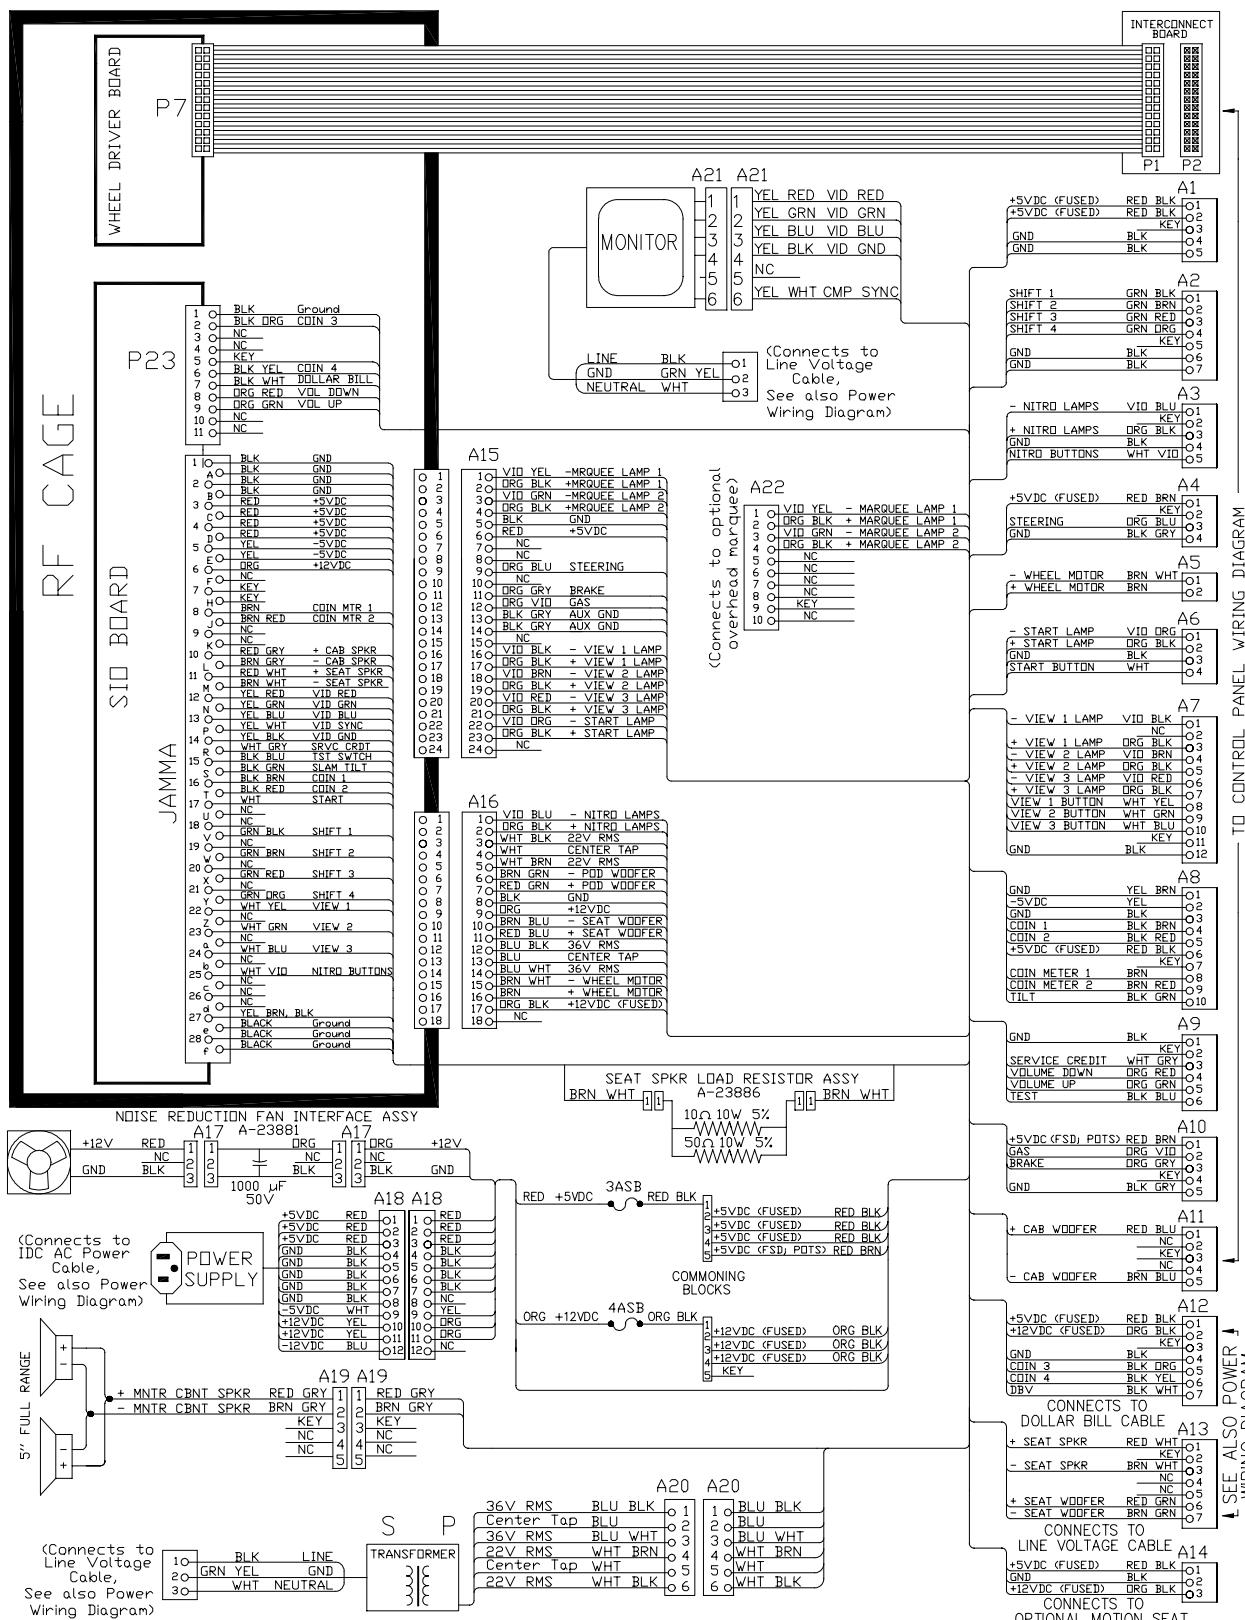

I.

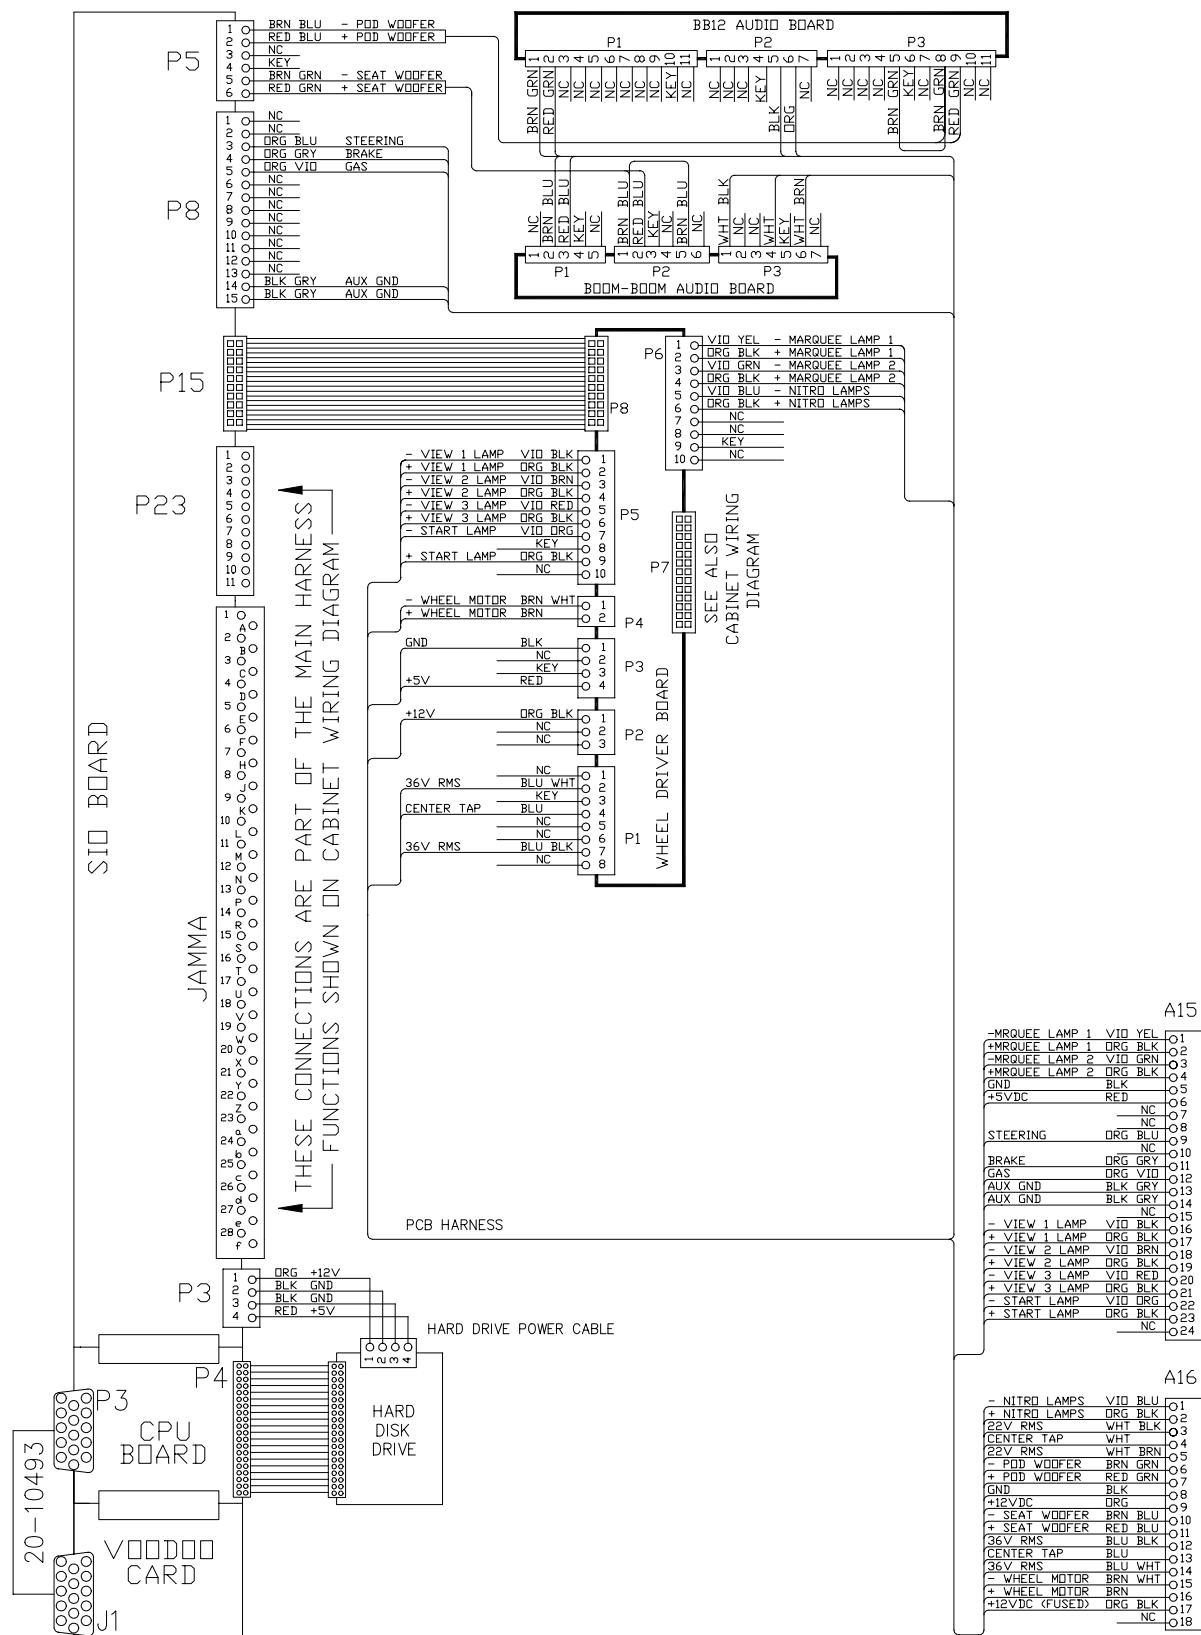

**Wheel Driver Board 04-12770.1**  
**Field Replaceable Wheel Driver Board Parts**

| DESIGNATION | PART NUMBER   | FUNCTION           | DESCRIPTION        |
|-------------|---------------|--------------------|--------------------|
| F1, F2      | 5731-14094-00 | Circuit Protection | Fuse 4A SB         |
| F3          | 5731-15627-00 | Circuit Protection | Fuse .63A FB       |
| U3          | A-23362       | Controller         | PLD Assy Primary   |
| U3          | A-23363       | Controller         | PLD Assy Secondary |

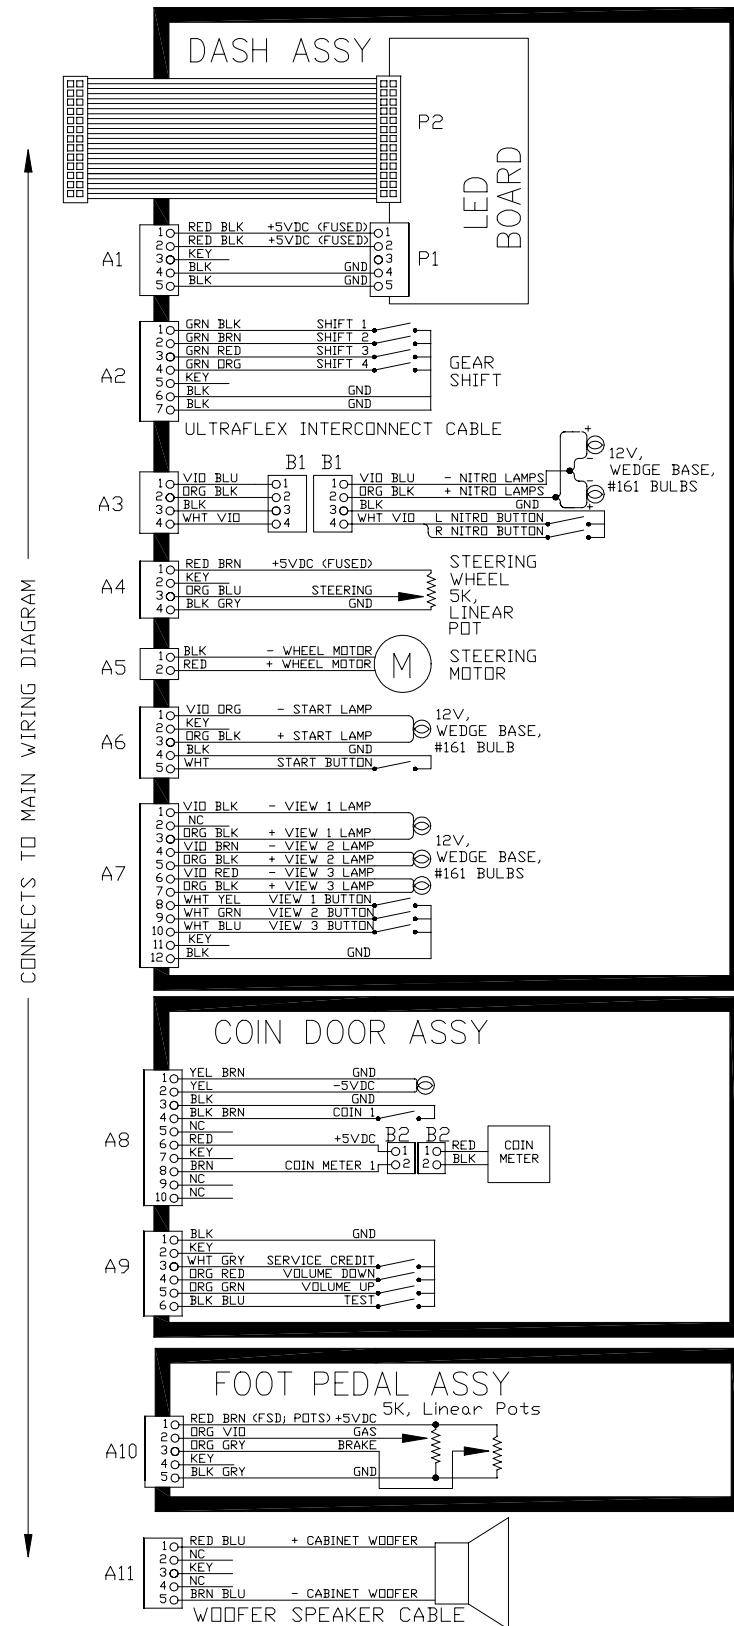

## Main Cabinet Wiring

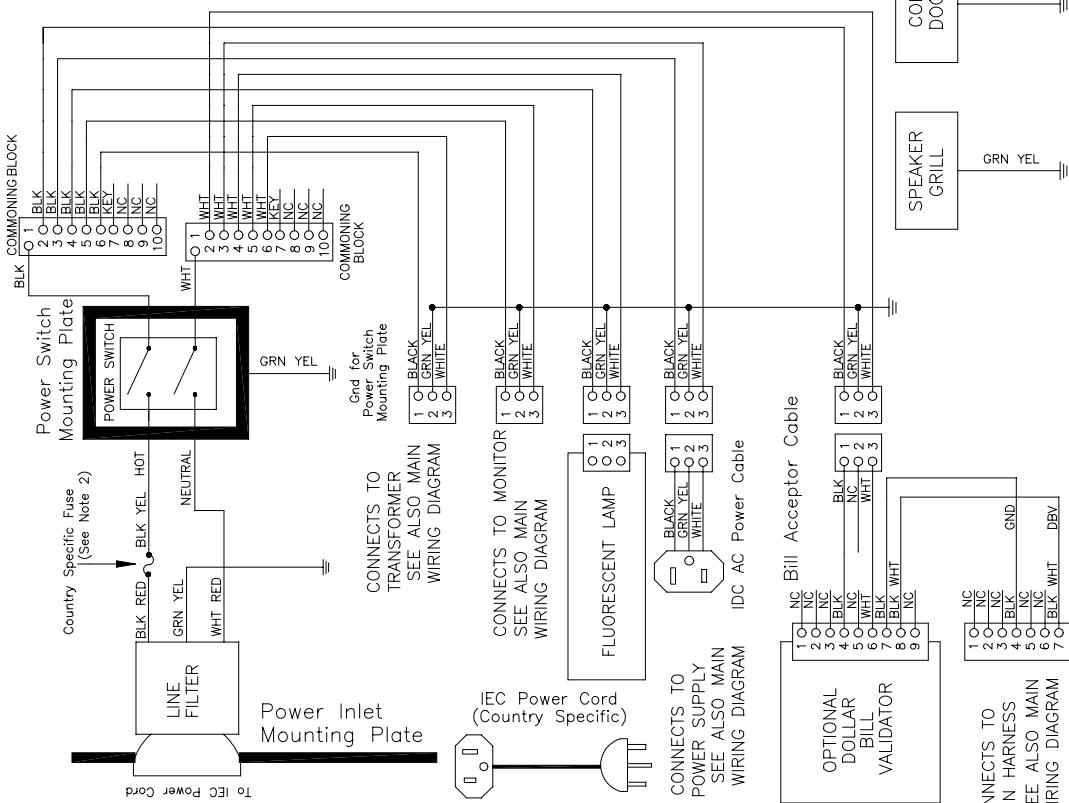

## RF Cage Wiring

## Control Panel Wiring

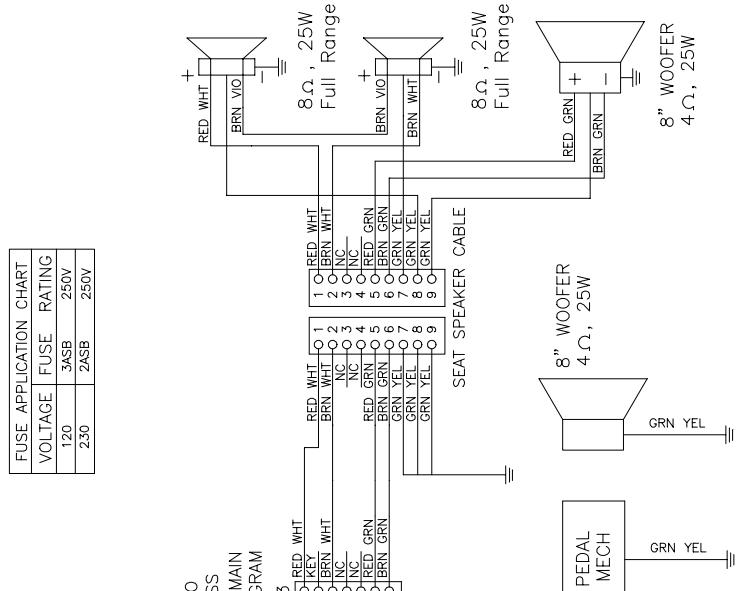

## Line Voltage Assembly (Cable and Switch)

NOTE 1: All Earth Ground Wires (green-yellow) connect to stud on Power Inlet Mounting Plate located in the Monitor Cabinet.

NOTE 2: THERE ARE 2 THINGS THAT MUST BE CHANGED FOR OPERATION ON OTHER LINE VOLTAGES  
 1. RATING OF CIRCUIT BREAKER FUSE  
 2. VOLTAGE SWITCH ON POWER SUPPLY

| FUSE APPLICATION CHART |       |        |
|------------------------|-------|--------|
| VOLTAGE                | FUSE  | RATING |
| 120                    | 3A SB | 250V   |
| 230                    | 2A SB | 250V   |

## Power Wiring Diagram
